EDUCATION

University of Houston

Houston, TX

Master of Science in Cybersecurity (GPA: 4.0/4.0)

Expected Aug. 2026

- Awarded \$16k Scholarship. Coursework: Network Security, Cryptography, Data Analysis for Cybersecurity, Cybersecurity Risk Management, Secure Software Design.

Rajiv Gandhi Proudlyogiki Vishwavidyalaya

India

Bachelor of Technology in Computer Science Engineering

July 2023

- Coursework: Python, Data Structures & Algorithms, DBMS, Cloud Computing, Operating Systems, Machine Learning.

EXPERIENCE

GenAI & Data Science Intern

June 2025 – Present

NOV Inc (National Oilwell Varco)

Houston, TX (On-site)

- Streamlined GenAI automation pipelines, reducing multi-day workflows by 90% and enhancing LLM training data ingestion and annotation accuracy by 20%.
- Deployed an intelligent email responder and autonomous AI agent orchestration system, cutting response times by 75% via adaptive reasoning and self-correction.
- Enhanced data validation workflows, improving AI-driven report accuracy by 20% and significantly reducing errors in downstream analytics for critical business operations.

Research Assistant – AI & Cybersecurity

Sep 2024 – May 2025

University of Houston

Houston, TX (On-site)

- Pioneered LIMA, an LLM-powered penetration testing framework, achieving autonomous initial machine access on HackTheBox labs at a cost of only \$0.05 per run.
- Analyzed large-scale IoT datasets using Python and MATLAB, enhancing data quality by 30% and extracting insights from noisy automotive signals to boost model reliability.

Associate Software Engineer

March 2023 – February 2024

Nagarro Software Pvt. Ltd.

India

- Engineered secure backend solutions with C#, .NET Core, and SQL Server, optimizing queries for 30% faster performance and enforcing robust JWT + RBAC authentication.
- Developed automated Python pipelines and interactive analytics dashboards, reducing manual reporting by 40% and enabling timely, data-driven decision-making across teams.
- Integrated analytics outputs into client-facing applications, increasing operational efficiency & transparency for diverse stakeholders.

Data Science Intern

July 2022 – December 2022

State Cyber Cell MP Police

India

- Performed comprehensive exploratory data analysis and statistical modeling on cybersecurity datasets, identifying critical patterns for risk mitigation strategies.
- Produced interactive reports and visualizations, improving operational insights by 35% and enabling more effective, evidence-based decision-making for the team.

PROJECTS

LocalRAGAgent – Offline Retrieval-Augmented QA | *Python, LangChain, FastAPI, Chroma, Ollama*

- Engineered a fully local RAG pipeline, extracting high-quality complex training data from PDFs, storing embeddings in ChromaDB, and serving Llama-3 responses with 300ms latency for enhanced offline knowledge retrieval.
- Interpreted technical documentation (LangChain, Llama-3 API) to optimize RAG pipeline integration and performance, ensuring accurate implementation of solutions.

PentestThinkingMCP – Autonomous Pen-Testing Server | *MCP, Beam Search, MCTS, AI Agent*

- Implemented an MCP server enabling LLM agents to autonomously plan and execute penetration tests, fully compromising HackTheBox Lame in 3 minutes at \$0.03 per run, demonstrating cost-efficient AI reasoning.

CareerPath AI – Personalized Learning Roadmaps | *Flask, GenAI, Python*

- Developed an AI-driven web application utilizing GenAI to generate personalized learning roadmaps for Cybersecurity, AI, and Data Science, improving user engagement by 45% through dynamic, context-aware explanations.

TECHNICAL SKILLS & CERTIFICATIONS

Generative AI & LLMs: LLM fine-tuning (GPT, Llama), RAG pipelines, AI agents, GenAI automation, Data Annotation, Data Markup, prompt engineering

Programming & Scripting: Python, SQL (PostgreSQL, SQL Server), JavaScript, Java, C/C++, Bash, PowerShell, R

Frameworks Libraries: Flask, FastAPI, React, LangChain, Ollama, Node.js, pandas, NumPy, Matplotlib, scikit-learn, TensorFlow, PyTorch

Databases Cloud: MySQL, PostgreSQL, SQL Server, MongoDB, ChromaDB, ETL/ELT pipelines, AWS (S3, Lambda, SageMaker), Azure, Google Cloud Platform, Docker

Developer Tools DevOps: Git, GitHub Actions, CI/CD, TravisCI, VS Code, PyCharm, Visual Studio, IntelliJ

Data Analysis ML: Statistical modeling, data analysis, NLP, feature engineering, model evaluation, technical documentation interpretation, XGBoost, LightGBM

Languages: English (Advanced C1+ proficiency), Hindi (Fluent)

Certifications: Google Data Analytics Professional, Microsoft Azure Data Fundamentals, Python for Data Science, Machine Learning Specialization
